

Working together...

Collaboration between "Amani-Kwetu" Association and local communities has made this possible.

Despite a great wealth and huge potential, the war raging since 1997 in the Eastern of Congo continues to keep people hostage in a precarious and, with serious consequences on the future of youth.

Your donation can make the difference.

Education is the best gift one would (wish) like to get to help himself.

Thank you for donating to AAK as your donation will help these young people to dream about a better future.

Introducing BIKANIRO PRIMARY SCHOOL

Help young people to dream about better future.

An initiative of AMANI-KWETU, a Canadian charitable organization run by Congolese-Canadians.

Building Dream & Hope for the future

Bikaniro Primary School

BIKANIRO SCHOOL is located situated in the inner highlands of Masisi in the Province of North-Kivu, the epicenter of Congo's wars and the area is severely affected by the endemic wars; that lack of the basic public infrastructures is significant.

“AMANI KWETU” a Canadian charitable organization run by Congolese-Canadians, is working hard to help these children by providing a basic education. Please help AAK to fulfill this mission.

Three decades of war

As the war rages on and violence escalates the most victims are children. Those who survive the war, are severely affected by poverty and the lack of education. Please, let's rescue them by making a donation towards their education.
